

Nima Engineers is a Mass Transfer company that specializes in providing end-to-end mass transfer technologies and solutions to a wide range of chemical, petrochemical, food and pharmaceutical industries.

The company has distinguished expertise in catering to the separation of chemical components in distillation, extraction & separation processes. The company provides both products and services across the entire value chain of Mass transfer operations.

Established in Pune, Koregaon Bhima, Nima Engineers commenced its operations in 2023 with rich experience in the related field. Nima Engineers has built a team of experienced engineers and technicians who provide a **'one-stop solution'** to our clients. We ensure that every installation is done right the first time and provide ongoing support and maintenance for optimal performance and longevity of the supplied equipment.
